Subject: EIS mtg yesterday

Doug,
It was a pleasure to meet with you yesterday. Thank you for the clarity you bring.
I would very much like a copy of the transcript - particularly of what I said. When Chip gave me the nod to finish up I forgot, I think, to emphasize the total costs in context - See page D-71. And that applying those monies to increasing efficiencies in energy uses during the time it takes to approve and build the plant would largely obviate need for the LNP to meet demands from expected growth.
Thank you for your help. Norman
