Docket No. 03035465 License No. 45-25534-01
Control No. 573640

Brian S. Wyatt
Vice President
ECS Mid-Atlantic, LLC
5320 Peters Creek Road, Suite F
Roanoke, VA 24019

SUBJECT: ECS MID-ATLANTIC, LLC, LICENSE RENEWAL, CONTROL NO. 573640

Dear Mr. Wyatt:

This refers to your application dated October 6, 2010, for renewal of your NRC license. Enclosed with this letter is the renewed license. **The amended license is written in accordance with current NRC policy and includes significant changes in the conditions of the license. A maximum possession limit of each radioisotope authorized on the license is specified in Item 8 of the license. These limits are based on the information included in your application. You are required to request and receive an amendment to your license prior to acquiring material in excess of these limits.**

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

The NRC expects licensees to conduct their programs with meticulous attention to detail and high standards of safety and compliance. Because of the serious consequences to employees and the public that can result from failure to comply with NRC requirements, you must conduct your program according to NRC regulations, the conditions of your NRC license, and the representations made in your application. In particular, note that you must:

1. Operate in accordance with NRC regulations 10 CFR Part 19, "Notices, Instructions and Reports to Workers; Inspections," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.

2. Notify the NRC in writing of any change in mailing address.

3. In accordance with 10 CFR 30.36(d), notify the NRC, promptly, in writing, and request termination of the license

   a) when you decide to terminate all activities involving materials authorized under the license; or

b) if you decide not to acquire or possess and use authorized material.

4. Request and obtain a license amendment before you:

a) change Radiation Safety Officers (RSO); **The RSO named on your license (Curtis Howe) left your company in May 2000, and you did not request an amendment to your license to name another individual as the RSO, until October 6, 2010. This appears to be in violation of the NRC requirements.**

b) order byproduct material in excess of the amount, or radionuclide, or form different than authorized on the license;

c) add or change the areas of use, or addresses of use identified in the license application or on the license; or

d) change the name or ownership of your organization.

5. Submit a complete renewal application or termination request at least 30 days before the expiration date of your license. You will receive a reminder notice approximately 90 days before the expiration date. Possession of byproduct material after your license expires is a violation of NRC regulations.

You will be periodically inspected by the NRC. Failure to conduct your program safely and in accordance with NRC regulations, license conditions, and the representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, imposition of a civil penalty, or an order suspending, modifying or revoking your license.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material;** then **Regulations, Guidance, and Communications.** You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

Thank you for your cooperation.

Sincerely,

Original signed by Sattar Lodhi, Ph.D.
