Withdrawal of Request for Exemption from 10 CFR 20 Appendix G Section III.E
San Onofre Nuclear Generating Station, Units 2 and 3

Reference: Letter from R. J. St. Onge (SCE) to the Document Control Desk (NRC) dated May 20, 2011; Subject: Docket Numbers 50-361, 50-362, Request for Exemption from 10 CFR 20 Appendix G Section III.E, San Onofre Nuclear Generating Station Units 2 and 3 (ML111430627)

Dear Sir or Madam:

In the referenced letter, Southern California Edison (SCE) requested an exemption from the reporting requirements of 10 CFR 20 Appendix G Section III.E for the shipment of the four original steam generator lower assemblies from Units 2 and 3. Following discussions with NRC staff by phone, SCE has decided to withdraw this request.

SCE will file a single report for each shipment once SCE has completed its investigation and has obtained the disposal facility's acknowledgement of receipt for the shipment as required by 10 CFR 20 Appendix G Section III.E.

This letter contains no new commitments.

Should you have any questions, please contact Ms. Linda T. Conklin at (949) 368-9443.

Sincerely,
