Re: Limerick License Renewal - NRC 2011-0166

I implore you to not relicense the Nuclear Power Plant of LIMERICK when its license expires in 2029. If I had my wish, the power plant would be closed years before 2029.

We need cleaner air and water. We need to decrease radiation. We need CLEAN, SAFE, RENEWABLE ENERGY!

Thank you for your time and consideration. Future generations are at stake.
