ARLINGTON, TEXAS 76011-4125

January 21, 2011

Vertical V, Inc.
ATTN: Carlos E. Acero, P.E.
Radiation Safety Officer
7895 Convoy Court, Suite 18
San Diego, California 92111

SUBJECT: CORRECTED COPY

Dear Mr. Acero:

Please find enclosed a Corrected Copy to Amendment Number 04 to NRC License Number 04-27654-01. **This corrected copy inserted missing wording in item 3 and removed the location of use under 10A because the address is located in an Agreement State.** An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14)(viii). You should review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or if you have any questions, contact me at 817-276-6596.

NRC expects licensees to conduct their programs with meticulous attention to detail and a high standard of compliance. Because of the serious consequences to employees and the public that can result from failure to comply with NRC requirements, you must conduct your radiation safety program according to the conditions of your NRC license, representations made in your license application, and NRC regulations.

NRC will periodically inspect your radiation safety program. Failure to conduct your program according to NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC may result in enforcement action against you. This could include issuance of a notice of violation; imposition of a civil penalty; or an order suspending, modifying, or revoking your license as specified in the NRC Enforcement Policy. The NRC Enforcement Policy is available on the following internet address: http://www.nrc.gov/reading-rm/doc-collections/enforcement/.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html.

Thank you for your cooperation.

Sincerely,

/RA/

Lizette Roldán, Ph.D., Health Physicist
Nuclear Materials Safety Branch B
