Subject: Objections to new Indian Point licenses/Relicensing .

To: Atomic Safety and Licensing Board
From:Lourdes Laifer, Cold Spring Resident
Re: Re licensing Indian Point

I live within 10 miles of Indian Point. The plants were built to last 40 years, as per the engineers that designed them, and they have run their course. They are old, unsafe and unnecessary. **They should not be re licensed**. We can do without the power that Indian Point generates, move towards truly green and sustainable energy and do this without putting 20 millions of lives in harms way. The evacuation plan is only theoretical and would never work in reality. Operating two nuclear reactors in a 50 mile proximity to 20 million people is a terrible idea. Please shut it down.
