Subject: RE: Letter to Executive Branch Re Export License Application XW020 (Canada)

Jane:
The Northwest Compact supports issuance of the desired export permit, XW020, as requested by EnergySolutions. This would enable the return of 1,178 pounds (approximately 68 cubic feet) of Class A dry active waste to Ontario Power Generation's Pickering Station in Canada. This waste was generated during the refurbishment in the U.S. of one radioactively contaminated pump impellor and associated equipment from the Ontario Power Generation's Pickering Station. Should you have any questions please contact me at (360) 407-7102.

Subject: Letter to Executive Branch Re Export License Application XW020 (Canada)

All,

Please find attached a copy of the letter to the Executive Branch along with the proposed export license application XW020 (Canada).

Please let me know if you have questions. Thank you.

NRC staff please charge your time for this case to I00031 (Executive Branch Review Level).
