FEB 0 3 2011

Bryan Tollenaar, M.S.
Radiation Safety Officer
Ingham Regional Medical Center
401 Greenlawn Avenue
Lansing, MI 48910-2819

Dear Mr. Tollenaar:

Enclosed is Amendment No. 77 to your NRC Material License No. 21-04073-01 in accordance with your request. Please note that the major changes made to your license are printed in **bold** font.

This also refers to the letter dated November 5, 2010 (with attachments) and the NRC Form 314 dated November 5, 2010, concerning the request to terminate the licensed activities covered by license number 21-32276-01 concurrent with the merger of those licensed activities into your NRC license number 21-04073-01 and the simultaneous change of ownership.

The NRC staff has reviewed the final status surveys submitted for license number 21-32276-01. Based on its review, the staff has concluded that all licensable radioactive material has either been removed from that facility and residual radioactive material attributable to licensed activities does not exceed current NRC criteria or the licensed materials remaining are to stay in place for continuity of the licensed program under your license number 21-04073-01 for Ingham Regional Medical Center.

In addition, the NRC hereby consents to the change of ownership and control transaction as described in the documents referenced above.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

You may reach me directly at (630) 829-9841 or (800) 522-3025, ext. 9841. My fax number is (630) 515-1078.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system.

Pursuant to NRC's RIS 2005-31 and in accordance with 10 Code of Federal Regulations 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability.

The RIS may be located on the NRC Web site at: http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf and the link for frequently asked questions

**The enclosed document contains sensitive security-related information.
When separated from this cover letter this letter is uncontrolled.**

regarding protection of security related sensitive information may be located at: http://www.nrc.gov/reading-rm/sensitive-info/faq.html.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html.

Sincerely,

Colleen Carol Casey
