NUCLEAR REGULATORY COMMISSION

CLINTON POWER STATION

DOCKET NO. 50-461

NOTICE OF WITHDRAWAL OF APPLICATION FOR

AMENDMENT TO FACILITY OPERATING LICENSE

[NRC-2011-0050]

The U.S. Nuclear Regulatory Commission (NRC, the Commission) has granted the request of Exelon Generation Company, LLC, to withdraw its March 3, 2010 application for proposed amendment to Facility Operating License No. NPF-62 for the Clinton Power Station, Unit 1, located in DeWitt County, Illinois.

The proposed amendment would have revised the Technical Specifications 3.1.7, to extend the completion time for Condition B (i.e., two standby liquid control subsystems inoperable) from 8 hours to 72 hours.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the FEDERAL REGISTER on May 4, 2010, 75 FR 23814. However, by letter dated February 22, 2011, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated March 3, 2010, and the licensee's letter dated February 22, 2011, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Room O1-F21, 11555 Rockville Pike (first floor), Rockville, Maryland 20852.
