3. NEI 12-06, Diverse and Flexible Coping Strategies (FLEX) Implementation Guide, Revision 0, dated August 2012
4. [NAME OF LICENSEE] Initial Status Report in Response to March 12, 2012 Commission Order Modifying Licenses with Regard to Requirements for Mitigation Strategies for Beyond-Design-Basis External Events (Order Number EA-12-049), dated [date of licensee's letter]
5. [NAME OF LICENSEE] Overall Integrated Plan in Response to March 12, 2012 Commission Order Modifying Licenses with Regard to Requirements for Mitigation Strategies for Beyond-Design-Basis External Events (Order Number EA-12-049), dated [date of licensee's letter]
6. [If applicable, additional references may be needed in the event other Tier 1 requirements impact the FLEX overall integrated plan. Example: reliable hardened vent.]
7. [If applicable, additional references to the draft safety evaluation report (SER) may be needed.]

On March 12, 2012, the Nuclear Regulatory Commission ("NRC" or "Commission") issued an order (Reference 1) to [NAME OF LICENSEE]. Reference 1 was immediately effective and directs [NAME OF LICENSEE] to develop, implement, and maintain

guidance and strategies to maintain or restore core cooling, containment, and spent fuel pool cooling capabilities in the event of a beyond-design-basis external event. Specific requirements are outlined in Attachment 2 [*or* Attachment 3 for COL holders] of Reference 1.

Reference 1 required submission of an initial status report 60 days following issuance of the final interim staff guidance (Reference 2) and an overall integrated plan pursuant to Section IV, Condition C. Reference 2 endorses industry guidance document NEI 12-06, Revision 0 (Reference 3) with clarifications and exceptions identified in Reference 2. Reference 4 provided the [NAME OF LICENSEE] initial status report regarding mitigation strategies. Reference 5 provided the [NAME OF LICENSEE] overall integrated plan.

Reference 1 requires submission of a status report at six-month intervals following submittal of the overall integrated plan. Reference 3 provides direction regarding the content of the status reports. The purpose of this letter is to provide the [first or sequential number] six-month status report pursuant to Section IV, Condition C.2, of Reference 1, that delineates progress made in implementing the requirements of Reference 1. The [attached, enclosed] report provides an update of milestone accomplishments since the last status report, including any changes to the compliance method, schedule, or need for relief and the basis, if any.

[Insert any applicable changes related to Reference 6 in the event other Tier 1 requirements impact the FLEX overall integrated plan. An example may be reliable hardened vent order changes, where changes in a specific area impact the FLEX overall integrated plan or implementation timeline. This is a summary level description of changes and may require details to be sent as separate submittals from this status report.]

[Insert any applicable changes related to Reference 7. As appropriate, provide a Reference 8 for any separate correspondence responding to the SER. Provide the detailed information in Section 5 or 7 of the attachment.]

This letter contains no new regulatory commitments. If you have any questions regarding this report, please contact [NAME OF LICENSEE POINT OF CONTACT] at [POINT OF CONTACT INFORMATION].

I declare [*or* certify, *or* verify, *or* state] under penalty of perjury that the foregoing is true and correct. Executed on [DATE].

Respectfully submitted,
