Hi Yolande – this is the first of a sequence of emails with attachments regarding NRC's request for additional information (June 4, 2013) in support of UNC's license amendment request. This information will prove useful during our scheduled conference call on Thursday, July 11, starting at 1:00 pm.

I am flagging the RAI's specific enclosure number and comment number in the subject line of each of the incoming emails. I will notify you when the last email has been sent.
