Subject: RAI, December 24 Decommissioning Plan Issues

Discussion: I discussed with Mr. Lanier four items that need corrected. First there was no disposal cost for krypton 85. The lab cost of $175 did not make it into Table 16 for total tabulation. The Certification of Financial Assurance (CFA) needs to state the amount of material as stated on the license. The amount of Mn-54 and Zn-65 was incorrect in the decommissioning funding plan. We discussed that he would correct the first two items and get concurrence on the amount and then change the CFA. He then would need to change the instruments.

Action Required: Mr. Lanier to make the changes and resubmit.
