General Comment

On behalf of the nuclear industry, the Nuclear Energy Institute (NEI) expressed support for the NRC staffs plans to develop a variable annual fee for small modular reactors (SMRs), as discussed in SECY-15-0044. AREVA Inc. (AREVA) endorses NEIs position and also requests that the Commission approve the staffs plans to draft a proposed rule in 2015 that would amend Part 171 of Title 10 of the Code of Federal Regulations (10 CFR), and assign this rulemaking a high priority.

The NRCs proposed approach is consistent with the industrys preferred approach conveyed in an NEI White Paper dated November 2, 2010 (ML 103070148).
