Dear Ms. Henderson,

Please find attached our comparison of 32 IAC 340.1230 to 10 CFR 70.50(c)(2). Our current regulations address all radioactive material and our reporting requirements are the same for everyone. We believe our current rule meets the intent of 10 CFR 70 and satisfies the health and safety categories established in the Office of Federal and State Materials and Environmental Programs (FSME) Procedure SA-200.

Thank you for your consideration in this matter. Please send us confirmation that these rules have been received and accepted. If you have any questions, please feel free to contact Gibb Vinson at (217) 785-9928.

Regards, Gibb
