---

Chris,

A while back, I suggested that NRC engage NEI regarding the attached Sep 15th RUG III presentation.

Given our interest in promoting a public dialogue about industry initiatives at our monthly public ROP meetings and in consideration of NEI's introduction of the CAP-002 initiative at the last meeting, I would like to propose that we share the attached NRC questions with NEI and the public and request an NEI presentation / Q&A session on CAP-002 at the November ROP public meeting.

I have attached the slides from the R-III RUG and I prepared and attached proposed NRC questions for NEI based on the RUG III slides.
