Docket No. 50-263

Northern States Power Company
ATTN: Mr. L. O. Mayer, Director
of Nuclear Support Services
414 Nicollet Mall
Minneapolis, Minnesota 55401

Gentlemen:

By letter dated April 6, 1973, Northern States Power Company submitted additional information in response to our request for a description of the Quality Assurance (QA) program for the Monticello Nuclear Generating Plant. The QA program, as described in your application for a full-term license (dated June 15, 1972) and in the referenced letter, does not provide sufficient detail to determine the acceptability of the program. Therefore, it is requested that you provide the following:

1) The program policy document (described in the FTOL submittal, Section 5.17.1), and

2) The Monticello Administrative Controls Manual dated November 27, 1972.

Sincerely,

Original Signed by:
