Person Called:	Lee Fredericks, RSO	**Phone No.:**	(201) 575 5252
Person Calling:	Sattar Lodhi	**Date:**	10/1/96
Facility Name:	SGS U.S. Testing Co. Fairfield, NJ	**Time:**	11:00 a.m.
License No.	29-02477-01	**Docket No.**	030-33619

Subject: Additional Information for termination

Summary: I called Mr. Fredericks to request additional information and learned that the licensee moved from the authorized location at 1415 Park Avenue, Hoboken, NJ to its present location 291 Fairfield Avenue, Fairfield, NJ, and did not amend its license to change the location of use. I informed the RSO that this was in violation of NRC regulations. He admitted this and stated that it was an oversight. He also stated that:

(1) C-14 was in the form of sealed source, it belonged to Rhone Poulenc and was in storage, and was shipped to Rhone-Poulenc from their prior location some time at the end of 1995,

(2) he does not know if there is any documentation related to this transfer, but he will send whatever documentation he can locate,

(3) Ni-63 sources contained in Gas Chromatographs have been returned to Hewlett Packard

(4) he will send the documents of any leak tests or surveys soon.

Action Required/Taken: Briefed John /wait for response
