Dear Mr. Conway:

SUBJECT: TURKEY POINT PLANT, UNITS 3 AND 4 - PETITION UNDER 10 CFR §2.206

On December 21, 1988, Mr. Thomas J. Saporito, Jr. filed a petition pursuant to 10 CFR §2.206 requesting that the Executive Director for Operations (EDO) not allow Florida Power & Light (FP&L) to bring the Unit 3 or Unit 4 reactors critical until both an internal safety investigation conducted by FP&L and an NRC safety investigation are completed (Enclosure 1). On January 13, 1989 Mr. Saporito supplemented his request to include immediate suspension and revocation of the operating licenses for Units 3 and 4 (Enclosure 2).

The Petition has been referred for action to the Office of Nuclear Reactor Regulation (NRR). NRR sent an interim response to Mr. Saporito dated January 30, 1989 (Enclosure 3).

We would appreciate your input to our final response to Mr. Saporito's concerns identified in Enclosures 1 and 2. Since actions pursuant to 10 CFR §2.206 must normally be completed within 90 days, we need your response by March 15.

Please contact Gordon Edison, the NRR Project Manager, if you need further information.

Sincerely,

Original signed by

Herbert N. Berkow, Director
Project Directorate II-2
