Importance:	High

Kim,

Please let me know if and when you are planning to provide me with any additional information or clarification on the basis for Holtec's request to withhold information as proprietary in the HI-STAR 100 CoC renewal application. I need to complete my proprietary review, per 10 CFR 2.390, of your submittal, and I would like to consider any additional information or clarification you may have regarding the basis for Holtec's request.

Thank you,
Kris

Kris,

I have not forgotten this, I've been tied up with an unexpected client visit the past week and a half, but I will get back to you.

Thanks,
Kim

This email originated from a source OUTSIDE of Holtec. STOP and THINK before CLICKING on links or OPENING attachments

Hi Kim,

Thank you for your time this morning to discuss the information in the subject submittal that Holtec is requesting to withhold as proprietary information.

As discussed, I wanted to provide for your consideration some examples of the publicly-available information that has been provided in past CoC renewal applications, and also the information provided in the NRC staff's related SER that was also publicly available:

- CoC renewal application: https://adamswebsearch2.nrc.gov/webSearch2/main.jsp?AccessionNumber=ML16279A372

  Please refer to the boron depletion TLAA in Appendix 3D, AMPs in Appendix 6A, and the evaluation of changes (via amendments or 10 CFR 72.48 changes) and their impact on the aging management review in Appendix 1.

- SER: https://adamswebsearch2.nrc.gov/webSearch2/main.jsp?AccessionNumber=ML17338A121

  Please refer to Section 3.4.4 on the boron depletion TLAA, and Section 3.6 on AMPs.

Also as discussed, please provide me with any references to previous HI-STAR 100 submittals that contained similar information that was withheld as proprietary. I will consider that information as I conduct my 10 CFR 2.390 review of your submittal.

Thank you,
Kris

Hi Kim,

I haven't heard back from you yet, so I wanted to touch base again to see when you are available to discuss the HI-STAR 100 CoC renewal application. I have some questions about information in the submittal that Holtec is requesting to withhold as proprietary information. Please let me know when you have an opportunity to chat.

Thank you, and happy new year!
Kris

Hi Kim,

I just left you a voice message, but I believe I reached the "maximum recording capacity," so I'm not sure if the voice message went through. I have some questions about the subject submittal and the information that is requested to be withheld as proprietary. Could you please let me know if you have any time this afternoon, or on Monday, 12/17, to discuss?

Thank you!
Kris
