Transportation Branch
Division of Fuel Cycle and Material Safety
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: Certificate of Compliance No. 4949; Request for Continuation as User.

Dear Mr. MacDonald:

Thank you for your notice relating to the expiration of the subject Certificate of Compliance. General Atomic had previously requested to be listed as user of the UNC-1484 shipping packages. We desire to remain on the registered user list for this package. We make this request since we understand that the package will continue to be issued a Certificate of Compliance and will be authorized for the transport of special nuclear materials.

General Atomic does not routinely use the package for shipments of material from our site. However we may receive materials in the package and for a variety of reasons may be required to return material to its supplier. In such an instance we would prefer to return the material in a configuration similar to that in which it was delivered.

We look forward to receipt of the renewed Certificate of Compliance indicating our continued registration as a user.

Very truly yours,

William R. Mowry
