

## **Welcome to the U.S. Nuclear Regulatory Commission's Open House for the Public Scoping Meeting Related to the Fermi Nuclear Plant, Unit 3 Combined License Application**

This open house is intended to provide an opportunity for interested members of the public and staff from other Federal agencies and from Tribal, State, local and other agencies to interact with the U.S. Nuclear Regulatory Commission (NRC) staff in an informal information exchange. The NRC is gathering information necessary to prepare an Environmental Impact Statement (EIS) as part of its review for the proposed combined license (COL) for the Fermi Nuclear Plant, Unit 3 (Fermi 3).

If you wish to provide formal comments regarding the scope of the environmental review for the Fermi 3 COL, they must be provided by **February 9, 2009**. Comments received after this date will be considered if it is practical to do so, but the NRC staff is able to assure consideration only for comments received on or before February 9, 2009.

Comments may be submitted today at the scoping meetings or in writing, via regular mail or email.

Written comments should be mailed to:

Chief, Rulemaking, Directives, and Editing Branch  
Division of Administrative Services  
Office of Administration  
Mailstop TWB-05-B01M  
U.S. Nuclear Regulatory Commission
