MEMORANDUM TO: Alexander R. Klein, Chief
Fire Protection Branch
Division of Risk Assessment
Office of Nuclear Reactor Regulation

FROM: Charles E. Moulton, Fire Protection Engineer */RA/*
Fire Protection Branch
Division of Risk Assessment
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF FEBRUARY 19, 2009, CATEGORY 2 MEETING
REGARDING THE NATIONAL FIRE PROTECTION ASSOCIATION
STANDARD 805 FREQUENTLY ASKED QUESTION PROCESS

On February 19, 2009, the U.S. Nuclear Regulatory Commission (NRC) staff held a meeting with stakeholders and the public to discuss Frequently Asked Questions (FAQs) at plants that are adopting National Fire Protection Association (NFPA) Standard 805. The NRC staff submitted and briefly summarized new FAQ 09-0056. Licensees stated that they would submit Revision 9 of FAQ 06-0008 immediately following the meeting, and they did so. Licensees and the NRC staff discussed the remaining open FAQs. The participants determined that both industry stakeholders and the NRC staff needed to continue to work on the remaining open FAQs.

Industry representatives stated that they would publish their positions on the following FAQs outside the FAQ process via reports issued by the Electrical Power Research Institute: 07-0035, 08-0042, 08-0043, 08-0045, 08-0047, 08-0049, 08-0050, 08-0051, and 08-0052.

NRC staff presented updated schedules for the review of the pilot plants' license amendment requests and development of NFPA 805 infrastructure.

Participants agreed that the next FAQ meeting would take place on March 26, 2009, via teleconferencing.

The meeting handouts are available in the Agencywide Documents Access and Management System. The accession number for the new FAQ is ML090490170. The accession number for the revised FAQ is ML090560170. The accession number for the schedule update is ML090490612. The December NEI NFPA 805 Task Force FAQ Log, a meeting handout, is available at ML083400191.
