NRC FORM 464 Part I
(03-2017)

U.S. NUCLEAR REGULATORY COMMISSION

RESPONSE TO FREEDOM OF INFORMATION ACT (FOIA) REQUEST

FOIA	RESPONSE NUMBER
2017-0681	1

RESPONSE TYPE ☐ INTERIM ☑ FINAL

REQUESTER:	DATE:
Angela Dugan	09/27/2017

DESCRIPTION OF REQUESTED RECORDS:

For the property at 3400 E 20th Street, Joplin, MO, license #24-23709-01, the permit, records reflecting the duration of the permit, reasons for the permit's issuance, and whether any violations exist.

PART I. -- INFORMATION RELEASED

You have the right to seek assistance from the NRC's FOIA Public Liaison. Contact information for the NRC's FOIA Public Liaison is available at https://www.nrc.gov/reading-rm/foia/contact-foia.html

- ☑ Agency records subject to the request are already available on the Public NRC Website, in Public ADAMS or on microfiche in the NRC Public Document Room.
- ☑ Agency records subject to the request are enclosed.
- ☐ Records subject to the request that contain information originated by or of interest to another Federal agency have been referred to that agency (see comments section) for a disclosure determination and direct response to you.
- ☐ We are continuing to process your request.
- ☑ See Comments.

PART I.A -- FEES

AMOUNT*

*See Comments for details

- ☐ You will be billed by NRC for the amount listed.
- ☐ You will receive a refund for the amount listed.
- ☐ Fees waived.

NO FEES

- ☑ Minimum fee threshold not met.
- ☐ Due to our delayed response, you will not be charged fees.

PART I.B -- INFORMATION NOT LOCATED OR WITHHELD FROM DISCLOSURE

- ☐ We did not locate any agency records responsive to your request. *Note:* Agencies may treat three discrete categories of law enforcement and national security records as not subject to the FOIA ("exclusions"). 5 U.S.C. 552(c). This is a standard notification given to all requesters; it should not be taken to mean that any excluded records do, or do not, exist.
- ☐ We have withheld certain information pursuant to the FOIA exemptions described, and for the reasons stated, in Part II.
- ☐ Because this is an interim response to your request, you may not appeal at this time. We will notify you of your right to appeal any of the responses we have issued in response to your request when we issue our final determination.
- ☐ You may appeal this final determination within 90 calendar days of the date of this response by sending a letter or e-mail to the FOIA Officer, at U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001, or FOIA.Resource@nrc.gov. Please be sure to include on your letter or email that it is a "FOIA Appeal." You have the right to seek dispute resolution services from the NRC's Public Liaison, or the Office of Government Information Services (OGIS). Contact information for OGIS is available at https://ogis.archives.gov/about-ogis/contact-information.htm

PART I.C COMMENTS (Use attached Comments continuation page if required)

Some of the enclosed records were already available to the public on microfiche in the NRC Public Document Room; NRC staff has advised that the other records may now be released to you in their entirety. Due to the age of the records, and their availability only on microfiche, the quality is mixed; we have provided you the best copies available to us.

PRIVACY ACT STATEMENT

Pursuant to 5 U.S.C. §552a(e)(3), enacted into law by section 3 of the Privacy Act of 1974 (Public Law 93-579), the following statement is furnished to individuals who supply information to the Nuclear Regulatory Commission on NRC Form 313. This information is maintained in a system of records designated as NRC-3 and described at 40 Federal Register 45334 (October 1, 1975).

1. **AUTHORITY:** Sections 81 and 161(b) of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2111 and 2201(b)).

2. **PRINCIPAL PURPOSE(S):** The information is evaluated by the NRC staff pursuant to the criteria set forth in 10 CFR Parts 30, 32, 33, 34, 35 and 40 to determine whether the application meets the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations, for the issuance of a radioactive material license or amendment thereof.

3. **ROUTINE USES:** The information may be (a) provided to State health departments for their information and use; and (b) provided to Federal, State, and local health officials and other persons in the event of incident or exposure, for their information, investigation, and protection of the public health and safety. The information may also be disclosed to appropriate Federal, State, and local agencies in the event that the information indicates a violation or potential violation of law and in the course of an administrative or judicial proceeding. In addition, this information may be transferred to an appropriate Federal, State, or local agency to the extent relevant and necessary for an NRC decision or to an appropriate Federal agency to the extent relevant and necessary for that agency's decision about you.

4. **WHETHER DISCLOSURE IS MANDATORY OR VOLUNTARY AND EFFECT ON INDIVIDUAL OF NOT PROVIDING INFORMATION:** Disclosure of the requested information is voluntary. If the requested information is not furnished, however, the application for radioactive material license, or amendment thereof, will not be processed. A request that information be held from public inspection must be in accordance with the provisions of 10 CFR 2.790. Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned need to inspect the document.

5. **SYSTEM MANAGER(S) AND ADDRESS:** U.S. Nuclear Regulatory Commission
Director, Division of Fuel Cycle and Material Safety
Office of Nuclear Material Safety and Safeguards
Washington, D.C. 20555

OMER SNYDER
1910-1986

SNYDER CONSTRUCTION COMPANY

"Heavy-Duty Dirt and Rock Moving Equipment"

3400 EAST 20TH STREET ● PHONE 417, 623-5267

JOPLIN, MISSOURI 64801

Item 5 Radioactive Materials

a. Radionuclei	b. Form	c. Maximum Amount
Cesium 137	Sealed source CPN Drawings Special form CPN-131	No single source to exceed 10 mci
Americium 241-BE	Sealed source CPN Drawings Special form CPN-131	No single source to exceed 50 mci

Item 6 Purpose for which Licensed Material will be used

For use in CPN Corporation MC-Series moisture density gauge to measure various properties of construction and other materials.

Item 7 Individuals Responsible for Radiation Safety Program

The Radiation Safety Officer (R.S.O.) for Snyder Construction Co. will be Richard L. Schweitzer II. The individual has attended a CPN Corporation training class on December 5, 1987, at Cape Girardeau, MO. This course was instructed by Colin Fletcher employed by C.P.N. Corporation.

Item 8 Training Provided to other users

Any person working with the gauge will have undergone a minimum of CPN Corp. training class and with certification of completion to document it. These documents will be retained for a minmum of 2 years.

Item 9 Facilities and Equipment

The storage of the gauge will be adequate to health and minimum danger to life or property. This will be achieved using a basement storage facility with a locking device on the door to prevent unauthorized entry. Attached on the back of this application is a layout of the storage facilities.

Item 10 Radiation Safety Program

1. Radiation Safety Officer (R.S.O.)

   a. Richard L. Schweizter II has been designed R.S.O. and will assume the responsibilities that include the following:

      1. To maintain all terms and conditions of the license are being complied with and that the license will be kept up to date and the information contained be accute.

      2. To ensure the equipment has been leak tested at required intervals and that the tests are carried out in accordance with C.P.N.'s guidelines. The test will be conducted using C.P.N.'s #TD11B Leak Test Kit.

      3. To ensure only individuals authorized will use the gauge and to supply and insure the individuals wear a suitable radiation film badge.

      4. To maintain records required by the license and regulations. These records to include: personal exposure, training certificates and 6 month leak tests.

      5. To ensure equipment is properly secured.

      6. To post proper signs and notices.

      7. To serve as a point of contact and give assistance in any emergency.

      8. To notify proper authorities in any emergency.

      9. To arrange training for any new users.

      10. To ensure all users have read and understand safety operations and emergency procedures.

Item 10 Radiation Safety Program - cont'd

2. Operating Procedures

a. Transportation of Equipment

1. All equipment will be secured in the transporting vehicle and kept as far away from the passenger compartment as possible. When transporting in the bed of a truck, it will be securely fastened and locked to the pickup bed. When transporting in an enclosed vehicle, this vehicle will remain locked.

2. The gauge will be transported in the CPN transportation case. The case is properly labeled in accordance with the U.S. Department of Transportation.

3. When the gauge is transported, the operator will carry required shipping papers and emergency procedures.

b. 1. The operator will exercise suitable control over the gauge at all times.

2. Under no conditions will the gauge be left unattended or under the supervision of an unauthorized person.

3. When not being used for field measurements the gauge will have its source mechanism locked .

4. As soon as testing is completed, the gauge will be placed back in its storage case.

5. When the operator is using the gauge, they are required to wear a personal monitoring device that is assigned to them. When not using their monitoring device, it will be kept in a radiaiton free area.

6. At all times the operator will observe the principles of A.L.A.R.A. (As Low As Resonably Achievable).

c. Maintenance and Leak Test Procedure

1. Periodic maintenance will include cleaning of the gauge. This procedure will involve the operator being trained and includes him wearing his film badge and observing the A.L.A.R.A. principle.

2. No maintenance that involves the source will be performed by the operator. The gauge will be returned to the manufacturer for removal of the source.

3. The leak test will be performed using an approved leak test kit. The kit we will use will be CPN's #TD11B and these tested will be conducted every 6 months. While conducting the test, the operator is required to wear his personal monitoring device.

Item 10 Radiation Safety Program - cont'd

4. The shipping case will be periodically checked to ensure all required labels are present.

3. Emergency Procedures

a. In event of physical damage to the gauge, the following will be performed:

1. Immediately rope off area around gauge. An area radius of 15 feet is sufficient.

2. If there is a vehicle involved, it will immediately be stopped until the extent of contamination is established.

3. Visual inspection of the gauge to determine if the source housing or shielding is damaged.

4. When the situation is under control, you must contact: Richard L. Schweitzer II, R.S.O. at 417-623-5267. Describe condition and follow instruction of the R.S.O.

5. Radiation Safety Officer will contact the appropriate agencies listed below.

a. Region III (24 hr. telephone No.) 312-790-5500

b. C.P.N. (Ohio office) 614-766-1276

b. In the event of a lost or stolen gauge, contact the R.S.O. immediately as listed in Item 3. a. 4.

Item 11 Waste Management

1. Disposal of radioactive material is limited to the transfer of the material to an authorized recipient or by returning it to the manufacturer.

Gentlemen:

Enclosed is your NRC License Number 24-23709-01 in accordance with your request.

Please review the enclosed document carefully and be sure that you understand all conditions. You must conduct your program involving radioactive materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, note that you must:

1. Operate in accordance with NRC regulations 10 CFR Part 19, "Notices, Instructions and Reports to Workers; Inspections," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.

2. Possess radioactive material only in the quantity and form indicated in your license.

3. Use radioactive material only for the purpose(s) indicated in your license.

4. Notify NRC in writing of any change in mailing address.

5. Request and obtain appropriate amendment if you plan to change ownership of your organization, change locations of radioactive material, or make any other changes in your facility or program which are contrary to your license conditions or representations made in your license application and any supplemental correspondence with NRC. Any amendment request should be accompanied by the appropriate fee specified in 10 CFR Part 170.

6. Submit a complete renewal application with proper fee or termination request at least 30 days before the expiration date on your license. You will receive a reminder notice approximately 90 days before the expiration date. Possession of radioactive material after your license expires is a violation of NRC regulations.

7. Request termination of your license if you plan to permanently discontinue activities involving radioactive material prior to your expiration date.

8903130685 880223
REG3 LIC30 PNU
24-23709-01

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions and representations in your license application will result in enforcement action against you in accordance with the General Policy and Procedures for NRC Enforcement Actions, 10 CFR Part 2, Appendix C.

If you have any questions or require clarification of any of the above stated information, contact us at (312) 790-5625.

Sincerely,

Original Signed By

License number: 24-23709-01

Docket or Reference number: 030-30395

13. A. The source(s) specified in Item(s) 7.A. and 7.B. shall be tested for leakage and/or contamination at intervals not to exceed 6 months. Any source received from another person which is not accompanied by a certificate indicating that a test was performed within 6 months before the transfer shall not be put into use until tested.

    B. Any source in storage and not being used need not be tested. When the source is removed from storage for use or transfer to another persons, it shall be tested before use or transfer.

    C. The test shall be capable of detecting the presence of 0.005 microcurie of radioactive material on the test sample. If the test reveals the presence of 0.005 microcurie or more of removable contamination, the source shall be removed from service and decontaminated, repaired, or disposed of in accordance with Commission regulations. A report shall be filed within 5 days of the date the leak test result is known with the U.S. Nuclear Regulatory Commission, Region III, 799 Roosevelt Road, Glen Ellyn, Illinois 60137, ATTN: Chief, Nuclear Materials Safety and Safeguards Branch. The report shall specify the source involved, the test results, and corrective action taken. Records of leak test results shall be kept in units of microcuries and shall be maintained for inspection by the Commission. Records may be disposed of following Commission inspection.

    D. The licensee is authorized to collect leak test samples for analysis by Campbell Pacific Nuclear or tests for leakage and/or contamination shall be performed by persons specifically licensed by the Commission or an Agreement State to perform such services.

14. The licensee shall conduct a physical inventory every 6 months to account for all sources and/or devices received and possessed under the license. Records of inventories shall be maintained for 2 years from the date of each inventory.

15. Sealed sources containing licensed material shall not be opened or removed from the gauges by the licensee.

16. When performing tests at temporary job sites, the authorized user shall not leave the moisture/density gauge unattended. Upon completion of tests the device shall be locked in the licensee's vehicle or a secure building to prevent unauthorized use, loss or theft.

17. The licensee may transport licensed material in accordance with the provisions of 10 CFR Part 71, "Packaging and Transportation of Radioactive Material".

18. The licensee shall supply personnel monitoring devices (film or TLD badges) to all authorized users and shall exchange the devices on a monthly basis.

Licensee:

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission's (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The findings as a result of this inspection are as follows:

[ ] 1. Within the scope of this inspection, no violations were observed.

[ ] 2. The inspector also verified the steps you have taken to correct the violations identified during the last inspection. We have no further questions on those actions at this time.

[X] 3. During this inspection certain of your activities, as checked below, were in violation of NRC requirements.
THIS IS A NOTICE OF VIOLATION which is required to be posted in accordance with 10 CFR 19.11.

[ ] A. _____ was not properly posted to indicate the presence of a _____ 10 CFR 20.203(b), (c), (d), (e) or 34.42

[ ] B. Containers located in _____ were not properly labeled to indicate the presence of radioactive material. 10 CFR 20.203(f)(1) or (f)(2).

[ ] C. LEAK TESTS _____ of sealed sources were not performed at the proper frequencies. 10 CFR _____ License Condition Number _____

[ ] D. Records of _____ were not properly maintained. 10 CFR _____ or License Condition Number _____

[ ] E. Documents were not properly posted or otherwise made available. 10 CFR 19.11.

[ ] F. Reports or notifications of _____ were not made in accordance with 10 CFR _____ or License Condition Number _____

ORDER REVOKING LICENSE

I

Snyder Construction Company (Licensee) is the holder of Materials License No. 24-23709-01, issued by the Nuclear Regulatory Commission (NRC or Commission) pursuant to the Atomic Energy Act, as amended, 42 U.S.C. §§ 2011 *et seq.*, that authorizes the activities stated therein. The license has an expiration date of March 31, 1993.

II

Pursuant to 10 C.F.R. § 171.16, the Licensee is required to pay an annual fee. The Licensee's annual fee for this license for Fiscal Year 1991, as set forth in fee category 3P of 10 C.F.R. § 171.16(d), is $1,500. As provided in 10 C.F.R. § 171.19, the Licensee's fee payment for Fiscal Year 1991 was due on August 9, 1991. The Commission sent Invoice AM07448-91 dated August 9, 1991, to the Licensee requesting payment of the annual fee described above within 30 days. The Commission sent a second notice of payment due to the Licensee on September 10, 1991. On October 8, 1991, the Commission sent a third, final notice of payment due, together with a Notice of Delinquent Debt (Notice),

9211090080 921021
NMSS LIC30
24-23709-01 PDR

ML

to the Licensee. The final notice of payment due specifically informed the Licensee that, "nonpayment of your fee may result in the Revocation of your License in accordance with the enforcement provisions of the Commission's regulations," namely, 10 C.F.R. § 171.23. To date, the Licensee has not paid the annual fee required by 10 C.F.R. Part 171.

III

In view of the foregoing and pursuant to Sections 53, 57, 62, 63, 81, (as applicable), and Sections 161b, 161c, 161i, 161o, 182, and 186 of the Atomic Energy Act of 1954, as amended, 42 U.S.C. §§ 2073, 2077, 2092, 2093, 2111, 2232 and 2236, and the Commission's regulations in 10 C.F.R. § 2.202, 10 C.F.R. § 171.23, and 10 C.F.R. Parts 30-35, 40, and 70 (as applicable), IT IS HEREBY ORDERED THAT:

A. Thirty (30) days from the effective date of this Order, Materials License No. 24-23709-01 is revoked, except that it continues in effect with respect to possession of residual licensed nuclear material present as contamination until the Commission notifies the Licensee in writing that the License is terminated;

B. Beginning thirty (30) days from the effective date of this Order and until the Commission notifies the Licensee in writing that the License is terminated, the Licensee shall:

1. limit actions involving licensed nuclear material to those related to decommissioning; and

2. continue to control entry to restricted areas until they are suitable for release for unrestricted use;

C. The Licensee shall dispose of any licensed nuclear material acquired or possessed under the authority of License No. 24-23709-01 within thirty (30) days after the effective date of this Order, either by returning the material to the manufacturer or transferring it to another person licensed to possess the same material;

D. Within 5 days after disposal of the material, the Licensee shall notify in writing A. Bert Davis, the Regional Administrator for NRC Region III, at 799 Roosevelt Road, Glen Ellyn, Illinois 60137, of the disposition of any licensed material which may have been possessed on the date of the Order under authority of License No. 24-23709-01; and,

E. Within thirty (30) days of the effective date of this Order, the Licensee shall conduct a radiation survey of the premises where the licensed activities were carried out, as set forth in 10 C.F.R. § 30.36(c)(1)(v), 40.42(c)(1)(v), and 70.38(c)(1)(v), as applicable, and submit a report of the results of this survey to A. Bert Davis, the Regional Administrator for NRC Region III, 799 Roosevelt Road, Glen Ellyn, Illinois 60137.

Failure to comply with any of the above conditions may result in further enforcement action, including, but not limited to, daily

civil monetary penalties for noncompliance beyond any deadline established above.

The Deputy Chief Financial Officer/Controller may relax or rescind the above conditions upon the Licensee's showing, in writing and under oath or affirmation, of good cause.

IV

The Licensee must, and any other person adversely affected by this Order may, submit an answer to this Order, and may request a hearing on this Order, within 30 days of the date of this Order. The answer shall specifically admit or deny each allegation or charge made in this Order and shall set forth the matters of fact and law on which the Licensee or other person adversely affected relies and the reasons as to why this Order should not have been issued. Any answer filed within 30 days of the date of this Order may include a request for a hearing. Any answer or request for hearing shall be submitted to the Secretary, U.S. Nuclear Regulatory Commission, ATTN: Chief, Docketing and Service Branch, Washington, D.C. 20555. Copies also shall be sent to the Deputy Chief Financial Officer/Controller, U.S. Nuclear Regulatory Commission, Washington, DC 20555; the Assistant General Counsel for Hearings and Enforcement at the same address; the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555; A. Bert Davis, the Regional Administrator, NRC Region III, 779 Roosevelt Road, Glen Ellyn, Illinois 60137; and to the Licensee if the answer or hearing request is by a person other than the Licensee. If a

person other than the Licensee requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this Order and shall address the criteria set forth in 10 C.F.R. § 2.714(d).

In lieu of filing an answer to the Order, the Licensee may pay the prescribed annual fee, together with the amounts specified below, within thirty (30) days of the date of this Order. This Order is rescinded in the event the Licensee remits the required fee of $1,500 plus applicable interest, penalties, and administrative charges of $426.11 through November 13, 1992, for a total of $1,926.11. If payment is received prior to November 7, 1992, a deduction of $0.58 per day for interest and penalties may be made from the total amount of $1,926.11.

If the Licensee or a person whose interest is adversely affected requests a hearing, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether this Order should be sustained.

V

In the absence of any request for hearing, this Order shall be final and effective 30 days from the date of this Order without further order or proceedings.

VI

The $1,500 fee plus interest, penalties and administrative charges of $426.11 through November 13, 1992, for Invoice

AN-2448-91 is a delinquent debt to the United States. Failure to make a remittance of $1,926.11 within 30 days of the date of this order may, pursuant to 10 C.F.R. Part 15, result in referral of the delinquent debt to a collection agency, referral to the U.S. General Accounting Office or the U.S. Department of Justice for litigation, or other action deemed appropriate. Pursuant to 10 C.F.R. § 15.29, the Commission may not consider a new application for a license from the Licensee unless all previous delinquent debts of the Licensee to the NRC, including the delinquent debt identified in this Order, have been paid in full.

License Fee and Debt Collection Branch
Division of Accounting and Finance
Office of the Controller

SUBJECT: FINAL ACTION - ORDER REVOKING LICENSE NO. 24-23709-01

On October 21, 1992, an Order Revoking License was issued to Snyder Construction Company for nonpayment of fee for License No. 24-23709-01, Invoice No. AM07448-91. Since 30 days has elapsed, action on the Order is as indicated below:

X/ License revoked for nonpayment of fee effective November 20, 1992. All requirements of the Order are effective and should be confirmed. The License Fee and Debt Collection Branch has entered Status Code 5 in the License Tracking System (LTS) to indicate the license is revoked for nonpayment of fees. Future applications from the licensee should not be processed until all debts are resolved. The debt will be referred to NRC's debt collection contractor.

__/ Licensee paid invoice in full, therefore the revocation is not in effect.

__/ Licensee submitted "Good Cause", therefore the revocation is not in effect. Future applications from the licensee should not be processed until all debts are resolved. The debt will be referred to NRC's debt collection contractor.

__/ Licensee requested a hearing. Request was forwarded to OGC on N/A.
