Subject: [External_Sender] wk 10.21 IPEC Weekly Sturgeon Monitoring Report

Good morning,

In accordance with Terms & Conditions #11 of the Amended Biological Opinion and Incidental Take Statement issued by the U.S. National Marine Fisheries Service to Entergy Indian Point on February 9, 2018 (the Amended Authorization), Entergy hereby provides NMFS and the US Nuclear Regulatory Commission with this weekly report on the condition of any Sturgeon encountered during the preceding week's Ristroph Screen impingement sampling at IP2 and/or IP3. This weekly report includes the time and dates of all impingement sampling, the number of Shortnose and Atlantic Sturgeon observed, and the condition of those Sturgeon (i.e., alive, dead, injured), with at least one photograph of each such Sturgeon observed. A courtesy copy is contemporaneously provided to the New York State Department of Environmental Conservation. To that end, please be advised as follows:

During the week of October 21, 2019, impingement sampling was performed as scheduled on October 21 and 25 at IP2, and October 21, 23 and 25 at IP3, commencing at approximately 0730 a.m. each day, and continuing for 24 hours. No sturgeon were observed.

Should you have any questions, please contact me at (914) 254.8468 or Chris Sweeney of Normandeau at (631) 410.3164.

Thank you.

Carlos A. Garcia
