Engineering Change Notice

1. QA: QA
2. Page 1 of 1

Complete only applicable items.

800-K0C-TEG0-01200-000-00A-ECN1

3. Document Identifier: 800-K0C-TEG0-01200-000-00A	4. Rev.: 00A	5. Title: Longevity of Emplacement Drift Ground Support Materials for LA	6. ECN: 1
7. Reason for Change: This calculation was completed in accordance with AP-3.12Q, Rev 2 ICN 1, Design Calculations and Analyses (which designated a calculation to be in one of three statuses: preliminary, final, or cancelled), and was designated as Preliminary. The AP-3.12Q procedure has been superseded by the new line procedure, LP-3.12Q-BSC Revision 0 ICN 0, Design Calculations and Analyses (which designates a calculation to be in one of four statuses: preliminary, committed, final, or cancelled). Per Section 5.1[2]c of Procedure LP-3.12Q-BSC Revision 0 ICN 0, the subject calculation status can be changed to "Committed" as the results are not expected to change in such a manner that will affect support of regulatory submittals. No LP-2.14Q-BSC review is necessary because no text changes are to be made.			
8. Supersedes Change Document: <input type="checkbox"/> Yes If, Yes, Change Doc.: _____ <input checked="" type="checkbox"/> No			
9. Change Impact:			
Inputs Changed: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		Results Impacted: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
Assumptions Changed: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		Design Impacted: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
10. Description of Change: (Address any "Yes" answers) Effective upon approval of this ECN, the subject calculation is in a committed calculation status, and the original designation checked in Block 7 on the calculation cover page is superseded by the status "Committed."
