Mr. William M. White, Chief
Division of River Basin Studies
Bureau of Sport Fisheries and Wildlife
U. S. Department of the Interior
Washington, D. C. 20240

Dear Mr. White:

In accordance with the understandings which were reflected in Secretary Udall's letter of March 20, 1964 to Chairman Seaborg, I am forwarding Volumes I and II of the Preliminary Safety Analysis Report filed by Arkansas Power & Light Company with its application covering the proposed construction and operation of the Russellville Nuclear Unit. The proposed reactor is to be located on the applicant's site in the southwest portion of Pope County, Arkansas.

We would appreciate receiving a report from the Fish and Wildlife Service concerning those features of the proposed reactor operation which might have radiological effects on fish and shellfish.

Sincerely yours,
