Thanks Ram,

It looks like we have the support we need for the call at 11 am. We would really like to discuss all three documents, even if that means we go over a little or we have to get back together at 1:00 PM.

Thanks,
Chris

Chris:

We have ascertained the staff availability for the call as previously planned for 11:00 a.m. - 12:00 noon for discussing Car's Paper. If time is available we can discuss other matters. As soon as I get a party line I will send you a e-mail.

Thanks.

Subject: Seismic Meeting Times & Request for a Report

Hello Ram,

I just received word that Nilesh and Adrian have agreed to have a conference call on Monday to discuss the white papers that we submitted. They have discussed getting together at 1 PM. However, I know that we have also discussed getting together at 11 am to discuss Carl's paper. I'm still pursuing that time frame. I think there is a couple of ways we can go. We can expand the scope of the call at 11 to include all three white papers or we can stick to the original plan and discuss Carl's paper at 11 am and then discuss the other two papers at 1 PM. What's your preference?

Also, we are getting some folks together to provide some alternative wording for the seismic ISG, specifically for section 3. Apparently, the staff received a report from a consultant that supports the ISG approach. Is there any way we can get a copy of that report to support our efforts in coming up with some alternative wording? Any help you can give will be appreciated.
