Attention: Mr. J. P. O'Reilly, Director

Dear Mr. O'Reilly:

SUBJECT: Grand Gulf Nuclear Station
Units 1 and 2
Docket Nos. 50-416/417
File 0260/15525/15526
PRD-80/23, Status Report #2,
Calibration Services From
Computer Sciences Corporation
AECM-80/159

On April 29, 1980, Mississippi Power & Light Company notified Mr. M. Hunt of your office of a Potentially Reportable Deficiency (PRD) at the Grand Gulf Nuclear Station (GGNS) construction site. The deficiency concerns nonconformances associated with calibration services provided to MP&L by Computer Sciences Corporation (CSC). These nonconformances were noted during an April, 1980, MP&L audit of the CSC calibration facility, NSTL Station, Mississippi.

The evaluation of the results of our investigation has not been completed. We expect to determine reportability and submit a final report no later than August 22, 1980.

Yours truly,

For J. P. McGaughy, Jr.
sistant Vice President,
Nuclear Production
