September 25, 2018

Mr. Kriss Kennedy
Regional Administrator
U.S. NRC Region IV
1600 East Lamar Blvd.
Arlington, Texas 76011-4511

Dear Mr. Kennedy:

Enclosed is a copy of the Final After Action Report for the August 15, 2018, medical services drill of the offsite radiological emergency response plans, site-specific to the Wolf Creek Generating Station. The participants in this drill were the Kansas Department of Health & Environment, Coffey County Emergency Medical Services, Coffey County Hospital, Coffey County Emergency Management, and Wolf Creek Nuclear Operating Corporation. The report was prepared by Federal Emergency Management Agency Region VII staff. The final report will be provided to the State of Kansas.

Based on the results of the drill evaluation, the offsite radiological response plans and preparedness for the State of Kansas and the affected local jurisdictions site-specific to the Wolf Creek Generating Station can be implemented and are adequate to provide reasonable assurance that appropriate measures can be taken offsite to protect the health and safety of the public in the event of a radiological emergency at the site. Therefore, the Title 44 CFR, Part 350 approval of the offsite radiological emergency response plans and preparedness for the state of Kansas, site-specific to the Wolf Creek Generating Station, granted on April 4, 1989, will remain in effect.

There were no Level 1 or Level 2 findings or planning issues identified during the drill.

If you have any questions or concerns regarding the report, please contact Mr. Tom Morgan, Regional Assistance Committee Chair, at (816) 808-2756 or by email Thomas.Morgan5@fema.dhs.gov

Sincerely,

PAUL J TAYLOR
