ENCLOSURE 1

NOTICE OF VIOLATION

University of Puerto Rico
San Juan, Puerto Rico

Docket No. 030-14810
License No. 52-01946-08

During the Nuclear Regulatory Commission (NRC) inspection conducted on November 7, 1989, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1989), the violation is listed below:

> 10 CFR 20.101(a) limits the whole body radiation dose of an individual in a restricted area to one and one quarter rems per calendar quarter, except as provided in 10 CFR 20.101(b). Paragraph (b) allows a whole body radiation dose of three rems per calendar quarter provided specified conditions are met.
>
> Contrary to the above, an individual engaged in activities within its restricted areas received a whole body radiation dose of 1.8 rems during the third calendar quarter of 1989, and the conditions of 10 CFR 20.101(b) were not met.
>
> This is a Severity Level IV violation (Supplement IV).

Pursuant to the provisions of 10 CFR 2.201, University of Puerto Rico is hereby required to submit a written statement or explanation to the Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555, with a copy to the Regional Administrator, Region II, within 30 days of the date of the letter transmitting this Notice. This reply should be clearly marked as a "Reply to a Notice of Violation" and should include [for each violation]: (1) admission or denial of the violation, (2) the reason for the violation if admitted, (3) the corrective steps which have been taken and the results achieved, (4) the corrective steps which will be taken to avoid further violations, and (5) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending the response time. If an adequate
