Docket Nos. 50-289
50-320

POOR ORIGINAL

Gentlemen:

This refers to the inspection conducted by Mr. R. L. Brown of this office on August 22, 1972 at Diamond Power Specialty Corporation, relating to construction activities authorized by AEC Construction Permit Nos. CPPR-40 and CPPR-66 and to the discussions of our findings held by Mr. Brown with Mr. J. Kunkel, of your staff at the conclusion of the inspection.

Areas examined during the inspection included the nondestructive testing techniques used to examine the "Control Rod Drive Motor Tube Extensions," for hot tear discontinuities. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with plant personnel, and observations by our inspector.

No items of nonconformance were identified during this inspection.

No reply to this letter is necessary; however, should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely yours,

James P. O'Reilly
Director
