Emergency Response Plan
Implementing Procedures

Furnished with this letter are ten copies of revisions to the Corporate Nuclear Emergency Plan Implementing Procedures.

Observations and inputs received during training sessions and walk-thrus have been included in this revision. Most changes were made to facilitate the use of procedures by response organization members. A few revisions include title changes and transfer of information or responsibilities to another procedure. The usual side-baring of changes would be ineffective for these revisions so a summary of change has been prepared for each procedure. Please refer to the Table of Contents Record of Revision for the current listing of procedures.

For reasons of privacy and plan effectiveness, we have deleted telephone numbers contained in these procedures.
