Dear Mr. Wuller:

CLINTON POWER STATION, UNITS 1 & 2

Our records do not indicate receipt as yet of information identified in Regulatory Guide 9.3 (copy attached) in connection with the operating license review of the captioned nuclear plant. We would appreciate it if you could supply the information as soon as possible, so that we can complete our findings as to whether any significant changes have occurred subsequent to the previous construction permit antitrust review that would warrant another review at the operating license review stage.

Sincerely,

William M. Zelinsky
