SUBJECT: H. H. Robertson Topical Reports
Tac Numbers 01969 and 54803

Gentlemen:

We notice from your "Topical Report Review Status", NUREG-0390, Vol. 6, No. 1, January 20, 1982, that you still have two H. H. Robertson Company Topical Reports under review.

I wish to bring to your attention a discrepancy in this document. On Page I-2, you indicate that the reports are still under review awaiting further information, but yet on Page II-97, you indicate that all responses to questions have been received. Please review this matter and advise when we may expect completion of your reviews.

As a practical matter, it has been impossible for us to effectively market these systems until they have been approved by the NRC.

Very truly yours,

H. H. ROBERTSON COMPANY
