With regards to Universal Medical Resources, Inc.'s pending amendment request relating to License # 24-32189-01:

The purpose of this letter is to provide the NRC with the information required to formally request a transfer of control of Universal Medical Resources, Inc., an NRC-licensed operation.

At Universal Medical Resources, Inc.'s inception in 1996, the operation was co-owned, equally, by David Anderson, James Wood, and Robert Rogers.
On 12/31/2000, David Anderson's share of the operation was relinquished and subsequently acquired by co-owners James Wood and Robert Rogers, making the two them equal owners of the operation.
On 04/01/2005, Jason Kitchell acquired 10% of the ownership of the operation, in the form of a 5% share from each co-owner, leaving both James Wood and Robert Rogers with 45% share of ownership of the operation, each.
On 09/30/2009, Jason Kitchell acquired an additional 5% of James Wood's ownership of the operation, taking his ownership percentage to 15% and reducing James Wood's ownership percentage to 40%; Robert Rogers retained his 45% ownership of the operation at that time.
On 12/31/2009, James Wood's remaining share of the operation was relinquished and subsequently acquired by Jason Kitchell and Robert Rogers. Jason Kitchell then held 25% ownership of the operation and Robert Rogers then held 75% ownership of the operation.
On 10/1/16, Jason Kitchell acquired an additional 25% ownership of the operation from Robert Rogers, making them both equal co-owners of the operation.
On 01/01/2019, Jason Kitchell acquired Robert Rogers' remaining shares, assuming full ownership of the operation.
By placing his signature, below, Robert Rogers acknowledges that he has relinquished ownership of the operation as of 01/01/2019 and transfers control of the licensed material and activity to Jason Kitchell.

As indicated on the pending amendment request, Universal Medical Resources, Inc. is requesting that the following changes in personnel be recognized:
That employees Robert Rogers and Michael Hill, named in the role of authorized users on the current license, be removed from that NRC recognized role within the company.

As indicated on the pending amendment request, the legal name of the company has not changed. Likewise, there have been no changes with regards to location, facilities, equipment, radiation safety program, use, possession, waste management, or other procedures relating to the licensed program.

The radiation safety program has been and is still currently functioning under the direction of RSO, Michael Wiese. Records relating to the facilities, equipment, calibrations, training, and quality control are being maintained. There is no indication of contamination.

Current ownership of Universal Medical Resources, Inc. will continue to abide by all constraints, conditions, requirements, representations and commitments made by previous ownership.

No decommissioning will be sought as a result of this transfer.
