NPDES Monitoring Report for
McGuire Nuclear Station - NC0024392
File: MC-702.25

Dear Sir:

In accordance with Part II, C(2) of the above referenced NPDES permit, duplicate copies of the monthly monitoring report for August, 1990 are enclosed.

Also, please find enclosed a corrected report for Outfall 005 for the month of July. The data was reported correctly on the front side of the report, but the box on the reverse side was checked compliant and should have been checked non-compliant due to failure of the chronic toxicity test.

Please direct any correspondence or questions concerning the McGuire Nuclear Station NPDES Program to M.C. Griggs (704) 373-7080, Nuclear Environmental Compliance.

Very truly yours,

W.A. Haller, Manager
Nuclear Technical Services
