

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**
WASHINGTON, D.C. 20555-0001

September 30, 2009

LICENSEE: Exelon Generation Company, LLC (Exelon)

FACILITY: Three Mile Island Nuclear Station, Unit 1

SUBJECT: SUMMARY OF SEPTEMBER 23, 2009, MEETING WITH EXELON TO
DISCUSS GENERIC LETTER 2004-02 SUPPLEMENTAL RESPONSE
REQUEST FOR ADDITIONAL INFORMATION (TAC NO. MC4724)

On September 23, 2009, a Category 1 public meeting was held by teleconference between the U.S. Nuclear Regulatory Commission (NRC) and representatives of Exelon Generation Company, LLC (Exelon, the licensee). The purpose of the meeting was to discuss remaining issues identified during NRC staff review of the Three Mile Island, Unit 1 (TMI-1) Generic Letter (GL) 2004-02 supplemental response. A listing of the issues of concern can be found in NRC letter dated July 23, 2009, available at Agencywide Documents Access and Management System (ADAMS) Accession No. ML091890848. The meeting was a follow-up to a teleconference held on August 11, 2009, (meeting summary available at ADAMS Accession No. ML092250551) and was intended to give Exelon the opportunity to explain their proposed approach for responding to the NRC staff's concerns. The meeting was also intended to give the NRC staff the opportunity to provide feedback regarding the licensee's proposed approach and to provide a mechanism for the NRC and Exelon to come to a mutual agreement on the remaining steps toward resolution of the outstanding GL 2004-02 issues for TMI-1.

Four of the draft responses to the TMI-1 specific issues, contained in the NRC request for additional information (RAI), letter dated July 23, 2009, were discussed in detail. These are the issues relating to RAI numbers 7, 11 and 13, as well as the general question regarding sump de-aeration potential. The draft responses discussed can be found at ADAMS Accession No. ML092650407. After discussion of the draft responses, it was determined that the only item requiring further discussion was the sump de-aeration question. A further follow-up public meeting teleconference will be scheduled to discuss this issue.

No proprietary information was discussed at the meeting. One member of the public was in attendance. No comments were presented to the NRC staff during the public portion of the meeting. A list of attendees is provided in the enclosure.

Please direct any inquiries to me at 301-415-2833 or peter.bamford@nrc.gov.

A handwritten signature in black ink, reading "Peter Bamford". The signature is written in a cursive style with a large, looping "P" and a long, sweeping "f".
