Glen Allen, VA 23060

Gentlemen:

SUBJECT: REQUALIFICATION PROGRAM INSPECTION - REPORT NO. 50-338/94-16

In a telephone conversation on June 10, 1994, Mike Allen, Training Supervisor, and Ronald F. Aiello, License Examiner, Region II Operator Licensing Section, made arrangements for the NRC to inspect the licensed operator requalification program at the North Anna Power Station in accordance with NRC Inspection Procedure 71001, "Licensed Operator Requalification Program Evaluation." The inspection is planned for your regularly scheduled requalification examination cycle beginning the week of August 8, 1994. The staff at your facility should prepare and conduct the requalification examinations in accordance with your NRC-approved requalification program.

In accordance with 10 CFR 55.59(c), the NRC may request facility licensees to submit their comprehensive requalification written examinations or annual operating tests as necessary to support the NRC's inspection program needs. In order for the NRC to adequately prepare for this inspection, please furnish the operating tests which are scheduled to be administered during the weeks of August 8 - 22, 1994, to the NRC by July 25, 1994.

The request for requalification examination material is covered by Office of Management and Budget (OMB) Clearance Number 3150-0101, which expires on October 31, 1995. The estimated average burden is 4.0 hours per response, including gathering, copying, and mailing the required material. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Information and Records Management Branch, MNBB-7714, Division of Information Support Services, Office of Information Resources Management, U. S. Nuclear Regulatory Commission, Washington, D. C. 20555; and to the Paperwork Reduction Project (3150-0101), Office of Information and Regulatory Affairs, NEOB-3019, Office of Management and Budget, Washington, D. C. 20503.
