Dear Mr. Reyes:

Subject: VIRGIL C. SUMMER NUCLEAR STATION
DOCKET NO. 50-395
OPERATING LICENSE NO. NPF-12
TESTING IN SITE SPECIFIC INFORMATION

Reference: L. A. REYES LETTER DATED JANUARY 4, 1999 TO G. J. TAYLOR, "NRC PERSONNEL ACCESS FOR SUMMER NUCLEAR STATION"

South Carolina Electric and Gas Company has implemented a policy that requires all personnel granted unescorted access to the Virgil C. Summer Nuclear Station satisfactorily complete a test on site specific information. Satisfactory completion of this testing will demonstrate and document that all personnel obtain knowledge and understanding of basic site specific information.

Mr. George Walker, of the station's Craft Training Center staff, will be coordinating through your Site Access Security Advisor, Ms. Peggy Shaw, to allow the NRC to administer the testing in accordance with this policy and your request of January 4, 1999.

Should you have any questions, please contact Mr. Ricky Myers at (803) 345-4384.

Very truly yours,

Gary J. Taylor
