Office of Nuclear Material Safety & Safeguards

Low-Level Waste Disposal: Alternate Methods

20.2001

- Specifies common radiological waste disposal options
- Most common is transfer to disposal site or waste processor via 20.2001(a)(1)
- **CHANGE**: NRC evaluating redefining "Authorized Recipient"

20.2002

- Approval process for site-specific alternative disposal procedures
- Could apply to onsite or offsite radioactive waste disposal
- **New alternative disposal guidance issued** for interim use
