SUBJECT: SCHEDULE REVISION FOR THE REVIEW OF THE SEABROOK STATION,
UNIT 1, LICENSE RENEWAL APPLICATION (TAC NO. ME4028)

Dear Mr. Curtland:

Enclosed is a revised schedule for the U.S. Nuclear Regulatory Commission (NRC) review of the Seabrook Station, Unit 1, license renewal application. This schedule has been revised to reflect the change in the schedule for the second Advisory Committee on Reactor Safeguards (ACRS) Subcommittee public meeting. The NRC staff's concern related to its ongoing evaluation of the basis and plan for aging management of the effects of alkali-silica reaction is not resolved and requires further review. For this reason, the ACRS meeting is being postponed to a later date to be determined.

Should you have any questions, please contact Mr. Tam Tran by telephone at 301-415-3617 or by e-mail at Tam.Tran@nrc.gov.

Sincerely,

/RA/

Division of License Renewal
