TRAINING: No

REMARKS: IMC 1245 App C12, "Safety Culture Assessor Training and Qualification Journal," has been revised to add two training courses which were agreed upon by the IMC 1245 working group.

IMC 2201 App A, "Security Baseline Inspection Program," has been revised to reflect the resource estimate associated with the conduct of the nominal range of inspection requirements in each inspectable area.

TI 2515/192, "Inspection of the Licensee's Interim Compensatory Measures Associated with the Open Phase Condition (OPC) Design Vulnerabilities In Electric Power Systems," is an initial issuance to verify implementation of interim compensatory measures associated with an open phase condition (OPC) design vulnerability in electric power system for operating reactors.

TI 2600/016, "Inspection of Activities Associated with NRC Generic Letter 2015-01," has been revised to extend the completion schedule to the end of the second quarter of calendar year 2017, and extend the expiration date to the end of calendar year 2017, to provide sufficient time to draft a summary report.
