

August 28, 2001

Mr. J. R. Strosnider
Director, Division of Engineering
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Subject: Release of EPRI MRP Information

Dear Jack,

As discussed with your staff during telephone calls on Thursday, August 23 and Tuesday, August 28, 2001, this confirms that the NRC staff has permission of the EPRI MRP to release the following information while the staff and EPRI work to resolve the release of other information previously considered proprietary:

The following twelve (12) plants are categorized by EPRI MRP data as being in the first two groupings identified in NRC Bulletin 2001-01 (i.e., previously identified leaks or cracks, or ranked by the EPRI MRP time-at-temperature model as being less than 5 EFPYs from being equivalent to Oconee 3):

Arkansas Nuclear One 1, D. C. Cook 2, Davis-Besse, North Anna 1, North Anna 2, Oconee 1, Oconee 2, Oconee 3, Robinson 2, Surry 1, Surry 2, and Three Mile Island 1.

Please contact me if you have any questions.

Sincerely,

C. S. Welty, Jr.
Director, Technology Applications
