COMMENTS: Below Attached None

Consistent with my vote on SECY-11-0003, “Status of Enforcement Discretion Request and Rulemaking Activities Related to 10 CFR Part 26, Subpart I, Managing Fatigue,” I approve implementation of an alternative to the minimum days off (MDO) requirements through the rulemaking process. As described in my vote on SECY-11-0003, the staff should implement the alternative to the requirements of 10 CFR 26.205(d)(3), related to MDO for normal, non-outage operations through an accelerated limited scope rulemaking.
