

June 30, 1998

MEMORANDUM L. Joseph Callan
TO: Executive Director for Operations
FROM: John C. Hoyle, Secretary /s/
SUBJECT: STAFF REQUIREMENTS - SECY-98-087 - PROPOSED GENERIC LETTER 98-XX: INTERIM
GUIDANCE FOR UPDATED FINAL SAFETY ANALYSIS REPORTS IN ACCORDANCE WITH 10 CFR
50.71(e)

The Commission has disapproved issuance of the proposed generic letter for public comment at this time. The staff should continue to work with NEI and other stakeholders, and strive to finalize an NEI guidance document that the NRC can endorse. The staff and NEI should reach closure by December 31, 1998. If agreement is not reached by that date, the staff should issue the draft generic letter for comment in the following week. Should the staff and NEI reach an impasse before December 31, the staff should promptly notify the Commission so that the Commission can reconsider issuance of the draft generic letter.

(EDO)

(SECY Suspend: 12/31/98)

Meanwhile, the staff should ensure that inspections do not use the draft generic letter. Completeness and accuracy of the FSAR should be tied together and accomplished within six months, for risk significant items (for other information, the updated FSAR must be complete and accurate within 18 months), of the issuance of either 1) the NRC endorsement of the NEI guidance or 2) issuance of the generic letter. Enforcement discretion should be extended until that time.
