NRC 2019-2020 Information Digest Now Available Online

The Nuclear Regulatory Commission has published its 2019-2020 edition of the [Information Digest](#), a publication that describes, in graphics and plain language, the agency's responsibilities and activities along with general information on nuclear-related topics.

This latest edition, NUREG-1350, Volume 31, is intended to serve as a quick reference guide with facts about the agency and the industry it regulates in an easy-to-use format that includes visual aids. New this year is an abridged audiobook, which incorporates materials from the Digest and is designed to reach a wider audience by delivering audio information.

The [Information Digest](#) is published annually and is available on the [NRC website](#). The digital version of the Digest has embedded hyperlinks for easy access to additional information regarding major topics. The NRC abridged audiobook, [graphics](#), [figures](#), [maps](#), and [data sets](#) also are available online.

In addition, a print copy will be available in late September 2019, upon written request to the U.S. Nuclear Regulatory Commission, Office of Administration, Publications Branch, Washington, D.C. 20555-0001. Requests can be sent by email to distribution.resource@nrc.gov or by fax to 301-415-2289.
