Dear Sir or Madam,

On January 23, 2013, the U.S. Nuclear Regulatory Commission (NRC) Staff issued the letter identified above as Reference 1 to Luminant Generation Company LLC (Luminant). The Enclosure to that letter identified eight generic technical issues needing resolution to determine the licensee's communications capability regarding a station black-out event. The Staff identified these eight generic issues to provide licensees with an opportunity to supplement the communication assessment submittals associated with Near-Term Task Force Recommendation 9.3. Luminant's communication assessment results submittal is identified above as Reference 3.

Attachment 1 to this letter provides Luminant's response to the eight generic technical issues identified in Reference 1. Attachment 1 supplements Luminant's communication assessment results provided in the letter identified as Reference 3.
