ALL AGREEMENT STATES

EXTENSION OF COMMENT PERIOD ON THE DRAFT REVISIONS TO THE "POLICY STATEMENT ON ADEQUACY AND COMPATIBILITY OF AGREEMENT STATE PROGRAMS" AND THE "STATEMENTS OF PRINCIPLES AND POLICY FOR THE AGREEMENT STATE PROGRAM" (FSME-13-080)

Purpose: The U.S. Nuclear Regulatory Commission (NRC) is extending the comment period of the notice that was published in the Federal Register on June 3, 2013 (78 FR 33122), requesting comments on proposed revisions to the NRC's policy statements on Agreement State Programs.

Background: FSME-13-055 letter, issued June 7, 2013, provides the draft revisions and background on each policy statement.

Discussion: The public comment period was scheduled to expire on August 19, 2013. However, the NRC received requests for extending the comment period from the Organization of Agreement States (OAS) and from the State of Florida. The parties requested the extension of the comment period so that the Agreement States would have time to discuss the proposed revisions during the OAS annual meeting before submitting their comments. The NRC agreed with these requests and the NRC has extended the comment period until September 16, 2013. The extension was published in the Federal Register on August 16, 2013 (78 FR 50118) and can be viewed through the following link: <https://www.federalregister.gov/articles/2013/08/16/2013-19853/policy-statement-on-adequacy-and-compatibility-of-agreement-state-programs-statement-of-principles>
