UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

November 3, 2017
ALL AGREEMENT STATES, WYOMING, VERMONT
ANNUAL COUNT OF ACTIVE RADIOACTIVE MATERIAL LICENSES IN THE NATIONAL MATERIALS PROGRAM (STC-17-074)

Purpose: To update the count of radioactive material specific licenses, general licenses/registrations, and generally-licensed devices currently active in the National Materials Program.

Background: Annually, the U.S. Nuclear Regulatory Commission (NRC) requests that all Agreement States provide the number of specific radioactive material licenses currently active under their jurisdiction. Additionally, the NRC is requesting that all Agreement States who have regulations compatible with 10 CFR 31.5, regarding general licenses, update the total number of general licenses/registrations and generally-licensed devices currently active under their jurisdiction.

Discussion: The latest count of specific material licenses in the National Materials Program as of November 30, 2016, is provided in Enclosure 1. Please revise the total number of currently active specific material licenses under your State's jurisdiction, and indicate how many of those licenses are industrial, medical, or academic licenses.

An estimate of the latest count of active general licenses/registrations and generally-licensed devices in the National Materials Program as of November 30, 2016, is provided in Enclosure 2. The NRC is requesting that all Agreement States who have regulations compatible with 10 CFR 31.5 update: 1) the total number of general licenses and, if applicable, the number of those licenses which are formally registered, and 2) the approximate number of generally-licensed devices currently active under their jurisdiction.

We would appreciate your email response providing the updated count of specific licenses and general licenses to the point of contact below within 30 days of the date of this letter. ${ }^{1}$
