WHEREAS, the parties desire to define and set forth the precautions and specific safeguards to be taken by the Contractor and the Government in order to preserve and maintain the security of the United States through the prevention of improper disclosure of classified information, sabotage, or any other acts detrimental to the security of the United States;

Section I - SECURITY CONTROLS

(A) The Contractor agrees to provide and maintain a system of security controls within the organization in accordance with the requirements of the "National Industrial Security Program Operating Manual," DoD 5220.22-M (*hereinafter called the Manual*) attached hereto and made a part of this agreement, subject, however, (i) to any revisions of the Manual required by the demands of national security as determined by the Government, notice of which shall be furnished to the Contractor, and (ii) to mutual agreements entered into by the parties in order to adapt the Manual to the Contractor's business and necessary procedures thereunder.

(B) The Government agrees that it shall indicate when necessary, by security classification (TOP SECRET, SECRET, or CONFIDENTIAL), the degree of importance to the national security of information

pertaining to supplies, services, and other matters to be furnished by the Contractor to the Government or by the Government to the Contractor, and the Government shall give written notice of such security classification to the Contractor and of any subsequent changes thereof; provided, however, that matters requiring security classification will be assigned the least restricted security classification consistent with proper safeguarding of the matter concerned, since over classification causes unnecessary operational delays and depreciates the importance of correctly classified matter. (C) The Government agrees, on written application, to grant personnel security clearances to eligible employees of the Contractor who require access to information classified TOP SECRET, SECRET, or CONFIDENTIAL.

(D) The Contractor agrees to determine that any subcontractor, subbidder, individual, or organization proposed for the furnishing of supplies or services which will involve access to classified information, has been granted an appropriate facility security clearance, which is still in effect prior to according access to such classified information.

Section II - SECURITY REVIEWS

Designated representatives of the Government responsible for reviews pertaining to industrial plant security shall have the right to review, at reasonable intervals, the procedures, methods, and facilities utilized by the Contractor in complying with the requirements of the terms and conditions of the Manual. Should the Government, through its authorized representative, determine that the Contractor's security methods, procedures, or facilities do not comply with such requirements, it shall submit a written report to the Contractor advising of the deficiencies.
